1.0 Executive Summary

The Citizens' Input Report into the 2026 Jigawa State Budget presents the collective priorities and recommendations of communities across all 27 Local Government Areas of the state. Inputs were gathered through town hall meetings in the three senatorial districts and the annual citizens' input collection exercise coordinated by the ELIP-Initiative. This exercise combined manual collection at community levels with online submissions via Google Forms to ensure inclusiveness and wide participation.

A total of 577 citizens' inputs were received and analyzed across 12 key sectors and Ministries, Departments, and Agencies (MDAs), with participation from more than 400 respondents, including men, women, youth, and Persons with Disabilities. The findings reveal strong demands in areas such as education, health, agriculture and livestock, water and sanitation, youth empowerment, infrastructure, and governance. Specifically, citizens emphasized the need for more schools, rehabilitation of existing facilities, teacher recruitment, and ICT integration; improved health facilities, essential drugs, and more health workers; agricultural support through irrigation development, smallholder farmer inputs, and livestock vaccination; provision of boreholes and solar-powered water schemes; youth employment and entrepreneurship opportunities; improved feeder roads, bridges, and street lighting; and greater transparency and accountability in budget implementation.

The exercise achieved several objectives, including generating citizens' priorities for the 2026 budget, strengthening the capacity of community-based organisations and citizens to engage in budget processes, promoting inclusiveness by capturing diverse voices across constituencies, and enhancing citizens' ownership of governance and fiscal accountability.

Overall, the report underscores the importance of a citizen-centered 2026 budget that addresses pressing community needs while promoting inclusive development. It provides a useful guide for the Executive Governor, MDAs, and the State House of Assembly to ensure that citizens' voices are reflected in budget formulation and implementation.

2. Introduction

This report presents the consolidated citizens' contributions to the 2026 Jigawa State Budget. The process was undertaken through participatory and inclusive approaches aimed at ensuring that citizens' voices are reflected in the state's fiscal priorities.

Inputs were gathered through:

- **Town Hall Meetings** were conducted in all three senatorial districts with the support of the Ministry of Budget.
- **Annual Citizens' Input Collection Exercise** coordinated by the ELIP-Initiative, which utilized both manual collection through ELIP's Local Government Area (LGA) chapters and an online Google Form platform.

In total, **577 citizens' inputs** were collected, reviewed, and analyzed across **12 key sectors/MDAs**, highlighting pressing community needs and priorities across the state.

3. Methodology

The exercise covered communities across all **27 Local Government Areas (LGAs)** in Jigawa State and was designed to be inclusive of diverse demographic groups. Over **400 respondents** participated in the process, including:

- Adult men and women
- Young men and women
- Persons with Disabilities (PWDs)

Key Activities

The following activities were undertaken to ensure a comprehensive and credible process:

1. Review and adaptation of citizens' input collection tools
2. Development and deployment of a Google Form for online submissions
3. Engagement with Community-Based Organisations (CBOs) across the 30 political constituencies of the state
4. Community-level collection of citizens' inputs through ELIP LGA chapters
5. Facilitation of senatorial district-level town hall meetings
6. Analysis and categorization of citizens' inputs by sector and constituency
7. Submission of compiled inputs (hard copies) to the Executive Governor, relevant MDAs, and the State House of Assembly (SHoA)
8. Uploading of citizens' inputs to the official state website for transparency and accessibility

4. Objectives of the Exercise

The citizens' input collection process was guided by the following objectives:

1. To generate citizens' priorities and inputs for consideration in the 2026 State Budget.
2. To strengthen the capacity of Community-Based Organisations (CBOs) and citizens to engage in the budget process.
3. To prioritize citizens' demands using participatory and simple research techniques.
4. To categorize inputs by constituencies and sectors for policy relevance and ease of reference.
5. To enhance citizens' participation, voice, and inclusiveness in the state budget process.
6. To promote citizens' ownership of the budgeting and governance process.

5. Key Findings and Priority Areas

Analysis of the 577 inputs generated from communities across the state reveals citizens' **priority needs and demands** across 12 sectors. The findings are summarized below:

5.1 Education

- Strong demand for the construction and renovation of primary and secondary schools.
- Requests for recruitment and deployment of qualified teachers, particularly in rural LGAs.
- Provision of learning materials and ICT facilities to improve the quality of education.

5.2 Health

- Calls for rehabilitation of health facilities and provision of essential drugs.
- Requests for increased staffing, particularly midwives and community health workers.
- Demand for functional primary health care centers in underserved communities.

5.3 Agriculture and Livestock

- Support for smallholder farmers through access to improved seeds, fertilizers, and mechanization.
- Livestock vaccination and grazing support infrastructure requested by communities.
- Irrigation development to boost year-round farming.

5.4 Water, Sanitation, and Hygiene (WASH)

- Demand for boreholes and solar-powered water schemes in rural and peri-urban areas.
- Requests for sanitation facilities and community hygiene education.

5.5 Youth Empowerment and Employment

- Calls for vocational training and skills development centers.
- Requests for job creation initiatives, particularly targeting youth and women.

5.6 Infrastructure and Roads

- Citizens prioritized road rehabilitation and construction of feeder roads to link farming communities to markets.
- Requests for street lighting and improved drainage systems in towns.

5.7 Governance and Accountability

- Citizens demanded greater transparency in budget implementation.
- Calls for regular publication of budget performance reports and increased participation in monitoring.

5.8 Other Sectors

- Inputs were also received in areas of environment, security, commerce, and women's empowerment, showing cross-cutting needs across constituencies.

6. Conclusion and Next Steps

The citizens' input process for the 2026 Jigawa State Budget underscores the strong demand for improved social services, agricultural support, and infrastructure development across all constituencies. The findings highlight the need for a **citizen-centered budget** that addresses pressing community priorities, promotes inclusiveness, and strengthens accountability in governance.

The report is expected to serve as a **policy reference document** for the Executive Governor, MDAs, and the Jigawa State House of Assembly in ensuring that citizens' voices shape the 2026 budget formulation and implementation.
